

## 2-2E Search for Journals in Nagoya University

### Nagoya University Library Search

( <https://nagoya-opac.nul.nagoya-u.ac.jp/?lang=english> )

Nagoya University Library Search (OPAC) is a tool for searching materials available in Nagoya University. You can search for almost all books and journals, except some materials, such as Japanese and Chinese classic literature, newspapers, and microform resources.

#### <How to search>

- (1) On library web page [http://www.nul.nagoya-u.ac.jp/index\\_e.html](http://www.nul.nagoya-u.ac.jp/index_e.html) click **Nagoya University OPAC**.
- (2) Enter the journal title you want to search, and click .
  - **It is not possible to search by journal's publication date, by title or author of article.**
  - It is not necessary to enter full title of the journal. It is possible to search just by some parts of the words including in the title. Particles are not necessary, either.
  - If you do not know exact Japanese characters, you can also search by Hiragana or Kana.  
Ex.) 辞典? 事典? → じてん
  - If you know only the abbreviation of journal title, add an asterisk (\*) after the stem of word. It is necessary to have at least two letters before asterisk.  
Ex.) (journal name abbreviation) J Mol Biol → Enter jou\* mol\* bio\* to search "Journal of molecular biology", "The Journal of steroid biochemistry and molecular biology" and so on.
- (3) The screen [Bibliography Search Result List] will be displayed.  
You can refine the results and change the order of display in Search Result List.
  - ① You can refine your search by Material Type (e.g. Books/Serials), Holding Library and so on. If you click on conditions, they will be applied.
  - ② You can change display order and number of results to display. By default, results are sorted by year "Year (Newest)", but can be changed to other options such as "Title (ASC)".

The screenshot shows the Nagoya University Library Search (OPAC) interface. At the top, there are navigation tabs for 'Nagoya Univ', 'Other Univ', 'NDL', 'WorldCat', and 'Nagoya One Search'. Below these is a search bar with 'Basic Search' and 'Advanced Search' options, and a 'contains tag' checkbox. The search term 'chem\* eng\* prog\*' is entered in the search bar. A 'Search' button is located to the right of the search bar. Below the search bar are buttons for 'Save to My Search' and 'Add Search Alert'. The search results are displayed in a 'Bibliography Search Result List' format, showing 1-13 of about 13 results. The results are sorted by 'Year(Newest)' and 20 results are displayed per page. The first result is 'Environmental progress & sustainable energy'. The sidebar on the left is titled 'Refine Your Search' and includes sections for 'Selecting conditions', 'Material Type', 'Holding Library', 'Author/Contributor', and 'Publisher'. The 'Material Type' section shows 'Non-Japanese Serials' selected. The 'Holding Library' section shows 'Central Lib', 'Cent Lib (3)', 'Higashiyama', 'Eng (11)', and 'Agr (1)'. The 'Author/Contributor' section shows 'American Institute of Chemical Engineers (7)'. The 'Publisher' section shows 'American Institute of Chemical Engineers'. The search results list includes the following entries:

Rank	Title	Volume/Issue	Year	Publisher
1	Environmental progress & sustainable energy	Vol. 28, no. 1	(Apr. 2009)-	John Wiley, 2009-
2	Process safety progress	Vol. 12, no. 1	(Jan. 1993)-	American Institute of Chemical Engineers.
3	Biotechnology progress : a journal of food, pharmaceutical and bioengineering	Vol. 1, no. 1	(Mar. 1985)-	American Institute of Chemical Engineers, 1985-
4	Plant/operations progress	Vol. 1, no. 1	(Jan. 1982)-v. 11, no. 4	(Oct. 1992)-
10	Chemical engineering progress	Vol. 43, no. 1	(Jan. 1947)-	American Institute of Chemical Engineers.

- (4) If you click on the corresponding title of journal, you can view the details.

## <How to read information on holdings>

Besides being able to check bibliography information on the journal and its location on [Bibliography Details] screen, it is also possible to access other search options or web request link.

The screenshot shows a library catalog interface with several sections:

- Bibliography Details:** Shows journal information for 'Chemical engineering progress' (Vol. 43, no. 1, Jan. 1947). It includes a 'Tag' field (No tag is registered), 'Functions' (Bookmark, Output, Mail, Export), and a URL.
- Collective Holdings Listing:** A table showing journal holdings across different libraries. Red boxes highlight the table and a specific row (0001) with a red arrow pointing to the 'Accession continuing' status. A red box with the text 'Make sure to check' is also present.
- E-Journals / E-Books Listing:** A table with columns for 'Link' and 'Platform'. A red box highlights the 'Link' column with the text 'Available from 1997'.
- Other Databases:** A list of databases including NULink, Amazon, Google Books, WorldCat, NDLSearch, and Citii Books. A red box highlights this section with the text 'Other Databases' and 'NULink'.
- Holdings Listing:** A table showing detailed holdings information. Red boxes highlight the table and a specific row (0003) with the status '貸出不可' (Not available for loan).

- ① **Bibliography Details:** Information about journal title, publisher etc.  
For more details check “Bibliography Details” below the screen. The publication year and volume number on this area are not actual library holdings. If you want to know available issues, check in “Collective Holdings Listing”.
- ② **Collective HoldingsListing:** The location of journals.  
Before you go for searching the journal, make sure to confirm [Location] [Volume] [Year].  
[Location] The approximate location of journal. “Cent Lib …” means that the location is Central library. If you click on allocation, detailed information about location and map will be displayed.  
[Volume] The volume number being subscribed. If you click here, you can see the information about each subscribed volume (see ⑤).  
[Year] Year and month of subscription  
[Continuing] The indication “Accession continuing” means that subscription to this journal continues.
- ③ **E-Journals / E-Books Listing:** If the electronic journal is available it will be displayed.  
[Link] By clicking, the e-journal site will open. Make sure to confirm the available years.
- ④ **Other Databases:** By clicking “NULink”, you can search for Electronic Journal DataBase. (see [Guide Sheet 3-3E “Let’s access to electronic journals”](#))
- ⑤ **HoldingsListing:** The state of holdings of each volume.  
[Status] The mark “in bound” means that the journal is at the binder’s, and it is not available for use.  
[Material ID] The numbers are indication that it is a bound journal. They are located in the basement floor.  
[No.] By clicking here, detailed information about matching volume number will be displayed.
