

# 2-2E Search for Journals in Nagoya University

## Nagoya University Library Search

( <http://nagoya-opac.nul.nagoya-u.ac.jp/?lang=english> )

Nagoya University Library Search (OPAC) is a tool for searching materials available in Nagoya University. You can search almost all books and journals, except some materials, such as Japanese and Chinese classic literature, newspapers, and microform resources.

### <How to search>

- (1) On library web page [http://www.nul.nagoya-u.ac.jp/index\\_e.html](http://www.nul.nagoya-u.ac.jp/index_e.html) click **Nagoya University OPAC**.
- (2) Enter the journal title you want to search, and click .
  - **It is impossible to search by journal's publication date, by title or author of article.**
  - It is not necessary to enter full title of journal. It is possible to search just by some parts of the words including in the title. Particles are not necessary.
  - If you do not know exact Japanese characters, you can also search by Hiragana or Kana.  
Ex.) 辞典? 事典? → じてん
  - If you know only the abbreviation of journal title, add an asterisk (\*) after the stem of word. It is necessary to have at least two letters before asterisk.  
Ex.) (journal name abbreviation) J Mol Biol → Enter jou\* mol\* bio\* to search "Journal of molecular biology", "The Journal of steroid biochemistry and molecular biology" and so on.
- (3) The screen [Bibliography Search Result List] will be displayed.  
You can refine the results and change the order of display in Search Result List.
  - ① You can refine your search by Material Type (e.g. Books/Serials), Holding Library and so on. If you click on conditions, they will be applied.
  - ② You can change display order and number of results to display. By default it is "Title (ASC)" mode, but you can also select "Published year (DESC)" (newest to oldest), "Relevance" and view options.

The screenshot shows the Nagoya University Library Search interface. At the top, there are navigation tabs for 'Nagoya Univ', 'Other Univ', 'NDL', 'WorldCat', and 'Nagoya One Search'. Below these is a search bar containing the query 'chem\* eng\* prog\*' and a 'Search' button. To the right of the search bar are buttons for 'Save to My Search' and 'Add Search Alert'. Below the search bar is a 'Bibliography Search Result List' section. On the left side of this section is a 'Refine Your Search' sidebar with sections for 'Material Type' (with 'Non-Japanese Serials' selected), 'Holding Library' (listing Higashiyama, Central Lib, and Cent Lib), 'Author/Contributor' (listing American Institute of Chemical Engineers), and 'Publisher'. The search results list shows five items, with the fourth item, 'Chemical engineering progress', highlighted in a red box. Annotations (1-4) are placed on the interface: (1) points to the 'Refine Your Search' sidebar, (2) points to the 'Search' button, (3) points to the search results list, and (4) points to the title of the highlighted journal entry.

- (4) If you click on the corresponding title of journal, you can view the details.
