

# 3-6E Web of Science

## Let's Try Searching from Citation Relations

 **On-campus only**

For the general search method of the Web of Science, please refer to “3-5 Web of Science: Let's Try Searching for Articles”. Here, we explain in detail about Cited Reference Search.

In the Web of Science, you can find out how many times a particular article has been cited. By following the citation relations, you can also find out the development and progress of the research. In Cited Reference Search, you can search for cited journal articles and books, conference proceedings or references which are not included as articles.

- (1) You can search for preceding articles which were cited in the *Article A* of your interest.
- (2) Also, you can search for articles citing the *Article A*. Thus, it is possible to find out how this research has progressed since then.
- (3) Moreover, you can search for other articles that have cited at least one the same articles cited by the *Article A*. Therefore, not relying on keywords, it is possible to find articles on the same research topic as the *Article A*.

In this way, when you have one article of your interest, it is possible to obtain broad information related to your research topic by following the citation relations.

### <How to Access>

1. Open the Library homepage ([http://www.nul.nagoya-u.ac.jp/index\\_e.html](http://www.nul.nagoya-u.ac.jp/index_e.html)).
2. On the drop-down menu of “Databases” click “Web of Science”.
3. On the lower part of the Web of Science screen, you can choose the screen language.

### <Search Order>

1. Under Web of Science tab, click on the Cited Reference Search.
  2. On the Cited Reference Search screen, enter search terms and click .
  3. List of cited references will be displayed.  
To display the full record for each cited reference, click the View Record link.
  4. Select appropriate references from the list and click .
- The list of articles which cites them will be displayed.

- Citation information is available on Natural and Social Sciences after 1900 and on Human Science after 1975.
- If you want to find out how many times your own article has been cited, please check first whether the journal published your article is included in the Web of Science and then search.

## <Explanation of the Cited Reference Search Screen>

For example, in case of searching for articles, citing Ryoji Noyori. CHEMICAL REVIEWS journal. 1999, issue 99 (2), p.353-354.

The screenshot shows the 'Cited Reference Search' interface. Annotations include:

- Abbreviated journal title**: Points to the 'Cited Work' input field containing 'CHEM REV'.
- If you don't know abbreviated journal title, search from here**: Points to the 'Cited Work' dropdown menu.
- Select screen language**: Points to the language selection options at the bottom (简体中文, English, 日本語).

Search criteria shown: Cited Author: NOYORI R.; Cited Work: CHEM REV; Cited Year(s): 1999.

## <Explanation of the List of Cited References>

The screenshot shows the 'List of Cited References' table. Annotations include:

- Name of the article's author**: Points to the 'Cited Author' column.
- Abbreviated journal title**: Points to the 'Cited Work' column.
- ...when the author is not the first one**: Points to the 'Cited Author' column for the first row (Jessop, PG... Noyori, R).
- Click to view details of this article**: Points to the 'View Record' link.
- Notice on data !**: A callout box explaining why a 'View Record' link is missing:
  - No "View Record"
  - Possible reasons?
    - (1) The journal is not registered.
    - (2) Cannot be identified because citation information (page, year, etc.) is incorrect and/or insufficient.
- 95**: Points to the 'Citing Articles \*\*' column for the selected record.

Table data (partial):

Select References	Cited Author	Cited Work [SHOW EXPANDED TITLES]	Year	Volume	Page	Article ID	Citing Articles **
<input type="checkbox"/>	Jessop, PG... Noyori, R	CHEM REV	1999	99	475	10.1021/cr970037a	546
<input type="checkbox"/>	NOYORI R	CHEM REV	1999	99	1		5
<input type="checkbox"/>	NOYORI R	CHEM REV	1999	99	2		1
<input type="checkbox"/>	NOYORI R	CHEM REV	1999	99	355		1
<input type="checkbox"/>	NOYORI R	CHEM REV	1999				1
<input type="checkbox"/>	NOYORI R	CHEM REV	1999				1
<input type="checkbox"/>	Noyori, R	CHEM REV	1999	99	353	10.1021/cr980085a	95

Restrict results by any or all of the options below:

- All languages: English, Afrikaans, Arabic
- All document types: Article, Abstract of Published Item, Art Exhibit Review

\* "Select All" adds the first 500 matches to your cited reference list.  
 \*\* Citing Article counts are for all databases and all years.

## <Search Method in Details>
